

# The Recycle Rex School Assembly is coming your way!

Recycle Rex is very excited to introduce his school assembly program, "Close the Loop: The Recycle Rex Quiz Show." Recycle Rex is the Spokesdinosaur on recycling for the California Department of Conservation. He has a very important message to all of the children of California: "Recycle, reduce, reuse and close the loop!"

Some of the educational benefits of this FREE assembly include:

- Learning more about the "3 R's"
- Better understanding of the recycling process
- Grasping the importance of "Buying Recycled"
- Gaining resources to learn more about recycling
- Encouragement to start/enhance recycling programs in your school or community.

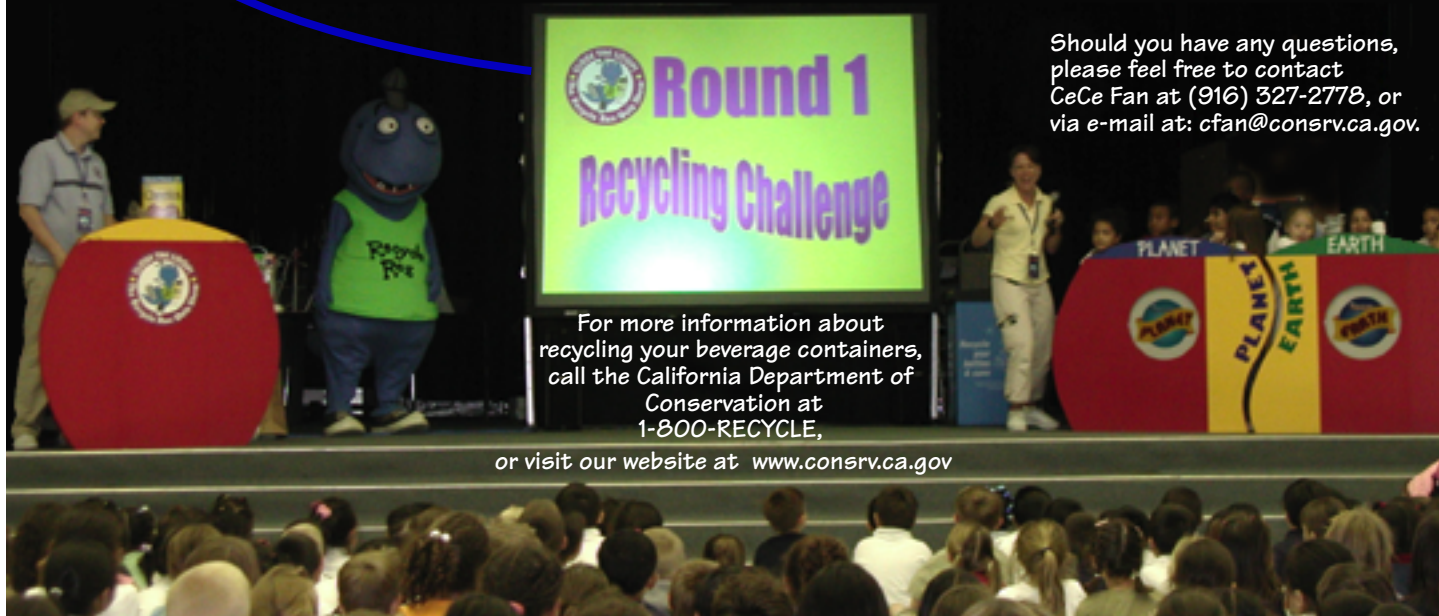

This 35-minute assembly, which is ideal for grades K-3, is chock-full of prizes, music and fun! Since the program is offered to elementary schools throughout California, we are only able to appear in your county approximately once every three (3) years. So, don't miss out on this wonderful educational opportunity!

In order to have the assembly at your school we ask only that you agree to help us test the effectiveness of our program by conducting a very basic survey before and after our visit. This can be done by either an in-class survey conducted by the teacher or a student take home survey to be provided by and returned to the Department of Conservation.

Please fill out the enclosed "Assembly Request Form" agreeing to the survey and return it to the California Department of Conservation. You can mail or fax your request as follows:
